PROFILE

Full-Stack Developer passionate about crafting scalable, high-performance web applications that drive business impact. With expertise in modern JavaScript ecosystems, cloud infrastructure, and AI integration, I thrive on transforming complex challenges into elegant solutions. Experienced in leveraging cutting-edge AI tools and APIs to build intelligent automation systems that amplify user capabilities. Committed to shipping production-ready code rapidly while maintaining engineering excellence, I blend technical innovation with strategic thinking to build products that users love and businesses rely on.

EXPERIENCE

Full Stack Lead Developer   July 2025 - Present
Kakiyo OÜ

- Architected and deployed **AI-powered** LinkedIn **automation** platform using **Next.js** and **React**, enabling businesses to scale outreach campaigns with 70% improved engagement rates
- Optimized backend infrastructure with **Express** and **Appwrite**, reducing database costs by 70% through efficient query optimization and caching strategies while maintaining sub-100ms API response times.
- Shipped **production**-ready features in rapid development cycles, maintaining **99.9%** uptime while iterating on core product functionality based on real-time user feedback.

SKILLS

Languages: JavaScript, TypeScript, C++, Java, HTML5, CSS3
Frontend: React.js, Next.js, Tailwind CSS, Framer Motion
Backend: Node.js, Express.js, Firebase, Appwrite**,** Prisma
Databases and Auth: MongoDB, Firebase Realtime DB, PostgreSQL, Better-Auth

PROJECTS

AVChat (Live Demo | Github)   July 2025
Multi Model LLM Chat App (Realtime)

- Developed a multi model LLM chat app where user can chat with multiple models in single place
- **Realtime Sync**, **20+ LLM Models**, Robust Backend, **Global Memory**.
- **Fully Open Source**
- **Text to Image Generation** and **Image to Image Generation**
- 2x Faster than traditional LLM Chat Web Apps.
- Built using Next.js, Tailwind CSS, Zustand, Framer Motion, and Appwrite Auth and Realtime API.

TuduAI (Live Demo | Github)   May 2025
Your personal task manager that understands you

- Natural Language Task Parsing using OpenAI 4.1 Mini
- Multiple Tasks Views and in detail Insights.
- Distraction Free Minimal UI.
- **Collaboration Feature**: Can collaborate with 5 Team members in a shared workspace.
- Built using React.js, Tailwind CSS, Framer Motion, and Appwrite Auth and DB

Effisense ([Live Demo](#) | [Github](#))   March 2025

Calendar and Task Management

- Developed a feature-rich calendar and task management app for productivity and smart scheduling and AI Suggestions.
- Integrated real-time notifications and synchronization with backend services using Appwrite and Google Calendar Sync.
- Built using React.js, Tailwind CSS, Framer Motion, and Appwrite

SkillCompass ([Live Demo](#) | [Github](#))   April 2025

AI-Powered Career Guidance and Resource Platform

- Designed and built an AI-based system to provide career suggestions and curated learning resources.
- Leveraged Gemini API and Groq API to generate personalized career paths.
- Full-stack development using React.js, Firebase, Tailwind CSS, and Appwrite.

PortDev ([Live Demo](#) | [Github](#))   February 2025

Instant Portfolio Generator

- Created a platform where users can build a personal portfolio in minutes using interactive templates.
- Enabled live editing, real-time preview, and dynamic deployment.
- Technologies: React.js, Tailwind CSS, Firebase backend.

EDUCATION

Manipal University Jaipur   *Jaipur, India*

Bachelor of Engineering in Computer Science(IOT & IS)   2023 – 2027

ACHIEVEMENTS

- **Winner**, HackerzStreet Hackathon 2025 organized by IEEE CS MUJ (Team Lead)
- **500+ DSA problems solved** on LeetCode (https://leetcode.com/cyberboyayush)
- Built and deployed 10+ major full-stack projects independently using cutting-edge technologies.
